TITLE : INK-JET RECORDING SHEET

ABSTRACT : PROBLEM TO BE SOLVED: To provide an ink-jet recording sheet with excellent ink absorbing properties, with which an image with high printing density and being clear can be obtained and with storage stability with no possibility of causing color fading and discoloration of the image and with excellent light resistance and ozone gas resistance.

SOLUTION: In the ink-jet recording sheet provided with an ink receiving layer on at least one face of a base material, the ink-jet recording sheet is characterized by containing an amino acid and a bivalent or higher water-soluble metal salt in the ink receiving layer.
